

Physician Referral Hotline

It is easy to access the full range of Parkwood's levels of care.
It starts with a phone call to our dedicated Physician Hotline.

Parkwood has created an intake phone line, which allows Physicians access to Parkwood's Needs Assessment staff quickly and efficiently. This line will also allow Physicians and Physician's office staff to expedite referrals without interfering with their office productivity.

Physician Referral Hotline 24 Hour Emergency Access Service 662-893-7100

Parkwood provides treatment programs for adults, adolescents and pre-adolescents with a range of behavioral health problems.

These may include:

- Depression
- Suicidal Thoughts
- Substance Abuse
- Anxiety
- Homicidal Thoughts
- Emotional & Behavioral Problems

Parkwood's continuum of care is designed to make behavioral health care available at different levels of need:

- Inpatient Programs
- Partial Hospitalization
- Residential Treatment
- Intensive Outpatient Treatment
